

Klove serves me as a resident of our local community. The effect on our local community would be awful, if Klove were to be displaced by an LPFM broadcaster providing other programming. We need Klove on the air witnessing to all of the people who need a wonderful radio station, such as Klove, to hear the importance of knowing Jesus Christ. I believe that the service that Klove provides it's listeners is irreplaceable and is a much needed family programming radio station that provides wholesome values and has a positive and encouraging impact on our communities across the United States.
